

SBM Offshore announces share repurchase

February 14, 2019

SBM Offshore is pleased to announce a EUR175 million (c. US\$200 million) share repurchase program, effective from February 14, 2019.

The objective of the program is to reduce share capital and, in addition, to provide shares for regular management and employee share programs. The repurchase program is expected to be completed within 2019, and it will be accomplished under the authorization granted by the Annual General Meeting of Shareholders of the Company held on April 11, 2018. The execution of the share repurchase program will be done under the terms of an engagement letter with a third party, performed in compliance with the safe harbor provisions for share repurchases, and therefore transactions may be carried out during closed periods.

In accordance with the European Market Abuse Regulation, the Company will inform the market of the progress made in the execution of this program through weekly press releases and updates on its website. In accordance with normal practice to cater for possible changes in future circumstances, the share repurchase program does not obligate the Company to acquire any amount of shares, and it may be suspended at any time at the Company's discretion.
